

ePollBook

The ePollBook solution includes:

- Hardware
—netbook or equivalent
- Driver's License Scanner
- Label Printer
- Carrying Case

Electronic Poll Book

The Hart ePollBook is a secure, paperless polling place voter management system. Simple step-by-step processing and instant access to up-to-date voter data ensure the correct voter is located and processed efficiently every time.

ePollBook is an ideal solution for Early Voting and Vote Centers as every voter's status is always up-to-date with the latest voting history and available in every polling location. **Accurate. Efficient. Secure.**

Voter management

Options

Bar Code Scanner

Scan voter's ID from Voter Registration card and/or first name from driver's license barcode

Access Code On Demand

Get error free ballot style selection when ePollBook is used with the Hart Voting System

Accurate

- Every registered voter's name at poll worker's fingertips improves accuracy of voter look-up and verification
- Scan capabilities eliminate data entry errors
- Determine correct ballot style

Efficient

- Streamlined voter check-in
- Compact, integrated case for secure storage, transport, and setup
- Interface with Voter Registration data

Secure

- Secure data synchronization in real-time
- Fully-encrypted data allows worry-free connectivity
- Redundancy - ability to restore data and voter history in more than one location
