

Absentee Processing

The automated way to manage, track, and process voters

Manage absentee status from initial request to recording the final disposition of the ballot.

► **Accurate**

Ensure accurate ballot delivery with integrated ballot styles from your election system.

► **Augment Your Staff**

An expanded workforce can easily be trained to process absentees on networked workstations.

► **Efficient**

Mailing labels are automatically generated with a single click of the mouse. Barcodes speed the processing of returned applications.

► **Integrate with Hart's ePollBook**

The latest absentee status automatically updates the Hart ePollBook during Early Voting.
