A Case in Point:

Hart ePollBook makes its mark in Texas

The Hart ePollBook improves the entire voting experience for both voters and poll workers with efficient and timely voter check-in. The response from poll workers across a wide-range of ages (from 34 - 70+) applaud the time savings, ease of use, and accuracy.

A Better Voting Experience For All

66 We were able to process voters much faster. Voters were really surprised that they did not have to stand in long lines.
99 Randall County, TX, Poll Worker - age 64

66 The ePollBooks were very simple to learn and made the qualifying process a lot more efficient resulting in a shorter wait for the voters. ?? Randall County, TX, Poll Worker - age 71

•• With this new system we just scan the bar code, which prints a label with the information needed and get the voter's signature. This saves so much time and is much more efficient than having to do all of that writing.

Young County, TX, Poll Worker - age 62

"It definitely speeds up the process"

Early Voting Made Easy

66 I think it's fabuous; I was ready to quit because I thought it would be Greek to me, but I'm excited about using them! It definitely saves time and is more accurate. ??

"Glad to see that we are buying more"

"We don't have to flip those books anymore"

66 We're demanding to have the ePollBook if we work the election! It just makes everything so easy. 99 Jones County, TX, Poll Worker - age 60

Technology can help recruit and retain poll workers and voters appreciate saying good-bye to long lines. Call sales for a personalized demonstration at 800.223.4278 or send an email to info@hartic.com.
